

Carol Mueller

Candidate for NADE Treasurer

Current Position: Assistant Professor Math and Earth Science
Harford Community College
Bel Air, Maryland

Vision: “NADE needs to be the leader in the discussions about the re-imagining of developmental education. As the programs are under a consistent barrage of legislation and devaluation by many administrators and organizations, it is our responsibility to remain the voice for our students. We need to be actively involved in research and data collection in order to counter attacks based on whims of legislators, who while well meaning, are often lured by glossy full color brochures with little to no accurate referenced data. We must remain the reasoned voice.”
